

General Physics Chosen to Provide H1N1 After Action Report/Improvement Plan for Maryland

Assessing preparedness and response activities for the 2009 H1N1 virus

Elkridge, MD. August 18, 2010 - Global performance improvement solutions provider [General Physics Corporation \(GP\)](#), a subsidiary of GP Strategies Corporation (NYSE: GPX), has been selected by the Maryland Department of Public Health and Mental Hygiene (DHMH) to provide an [After Action Report/Improvement Plan \(AAR/IP\)](#) for the 2009 response to the H1N1 virus. GP will collect data from public health entities in order to gauge the overall response to the H1N1 outbreak and lessons learned, for DHMH to evaluate and consider for future pandemic response.

As a result of the widespread scope of the H1N1 pandemic influenza outbreak within the State of Maryland, hospitals and Local Health Departments (LHDs) have had the opportunity to demonstrate many of the capabilities needed to respond to a pandemic. The State response includes five Health and Medical Regions, including 45 hospitals, 24 LHDs, federally qualified health centers and other state agencies.

DHMH receives grant funding from the U.S. Department of Health and Human Services (HHS) through their Hospital Preparedness Program (HPP), Centers for Disease Control and Prevention, Public Health Emergency Preparedness Cooperative Agreement (PHEP) and Public Health Emergency Response (PHER) grants. As a condition of these grants, DHMH is required annually to facilitate drills and exercises throughout Maryland that demonstrate specified emergency preparedness and response capabilities. It has been determined that proper documentation describing real-world H1N1 preparedness and response activities can be used to satisfy some drill and exercise requirements for the current grant year.

About GP

We make statements in this press release that are considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934. These statements reflect our current

expectations concerning future events and results. We use words such as “expect,” “intend,” “believe,” “may,” “will,” “should,” “could,” “anticipates,” and similar expressions to identify forward-looking statements, but their absence does not mean a statement is not forward-looking. These statements are not guarantees of our future performance and are subject to risks, uncertainties, and other important factors that could cause our actual performance or achievements to be materially different from those we project. For a full discussion of these risks, uncertainties, and factors, we encourage you to read our documents on file with the Securities and Exchange Commission, including those set forth in our periodic reports under the forward-looking statements and risk factors sections. Except as required by law, we do not intend to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.
